SUMMARY

Full-Stack Developer with hands-on experience in building scalable web applications and APIs using Laravel, CodeIgniter, and modern JS frameworks. Strong background in UI/UX, database management, and agile collaboration. Proven success in both freelance and internship roles, with live deployed projects and client satisfaction.

WORK EXPERIENCE

Software Engineering Intern, GateOneSoft   **Oct 2024 - Apr 2025**

- Developed and maintained full-stack modules for HR & Payroll and Material Management systems.
- Utilized Laravel and CodeIgniter frameworks for backend logic and MySQL for data management.
- Designed responsive UIs using HTML, CSS, JavaScript, jQuery, and Bootstrap.
- Integrated AJAX for enhanced client-server interactions.
- Built secure modules (Login, OTP-based password reset, asset tracking).
- Enhanced usability and functionality via responsive UIs and backend improvements.
- Collaborated in daily scrum meetings, project reporting, and Jira-based task management.
- Gained professional experience in communication, time management, and problem-solving within a remote environment.

Freelance Web Developer, FEDDYFLOWS   **Dec 2024 - Feb 2025**

- Designed and developed a custom WordPress website including theme customization, plugin integration, and responsive design.
- Conducted feasibility studies and risk assessments to mitigate project risks.

EDUCATION

BSc (Hons) in Information Technology (Specialising in Information Technology)   **Jul 2024 - Oct 2026**
University of Sri Lanka Institute of Information Technology
- Major: AI/ML.

Higher National Diploma   **Oct 2022 - May 2024**
University of Sri Lanka Institute of Information Technology
- Key Modules: Programming, Mathematics for Computing, Communication Skills, Data Modeling, OOP, Web Technologies, Software Process Modeling, Admin, Mobile App Development, Data Structures & Algorithms, Database Management

PROJECTS

MIKIDA (Freelance WordPress Project)   **Dec 2024**

- Developed a fully functional WordPress site with theme customization, plugin integration, responsive UI, and SEO optimization.
- Managed content, domain/hosting setup, and maintenance.

etoolfY (Freelance WordPress Project)   **Nov 2024**

- Built and launched a WordPress site with PayPal payment integration, credit card support, and robust security features.

Student Management System (Laravel, MySQL)   **Sep 2024**

- Technologies: Laravel, MySQL
- Tools: VS Code, GitHub, XAMPP

Event Management System (MERN Stack)   **Jun 2024**

- Technologies: MongoDB, Express.js, React, Node.js
- Tools: VS Code, GitHub, Postman

TaskWise – Task App in Kotlin   **Jun 2024**

- Mobile app for task management using Kotlin, XML, SQLite.

Online Book Store Management System   **Oct 2023**

- Developed backend using HTML, CSS, JavaScript, PHP, and MySQL.
